

Roofing Analytics' *Senior Commercial Project Manager*, Larry Meyers, has a Florida Certified Roofing license dating back to 1995 (CCC 057260) and has worked on thousands of roofs between commercial and residential projects. Known as one of the best Master Roofers in the trade, he is a preferred installer for GAF, Owens Corning and Scandinavian Metal Roofs (to name a few), including various tile systems such as barrel and S-shaped clay and concrete tile roofs. While his expertise is extremely diverse, he specializes in commercial roofs, specifically, metal and flat roofs. The following are just a small example of his works and references:
